

SAVE MISSOULA FROM NEW INFILL/OVERFILL ZONING

***In your neighborhood,
you could see:***

- 1. Alley houses/Accessory Dwelling Units**
- 2. Single detached houses allowing 8 unrelated residents**
- 3. Three-story buildings up to 35 feet**
- 4. Reduced side setbacks on higher buildings**
- 5. Houses built on lot lines**
- 6. Windmills up to 46 feet in back yards**
- 7. Dramatic increase in on-street parking**
- 8. Nonconforming lots as building sites**
- 9. New zoning district with 5 houses where 2 once existed, with very small lot sizes**
- 10. And much more...**

Mayor Engen, city planners, and City Council members who advocate greater density are supporting the rewrite of Missoula's zoning codes. They are repealing the protections of the existing ordinance (Title 19) and are creating a new one (Title 20).
